UNIÃO E RECONSTRUÇÃO

Registration of animal origin products from the EU

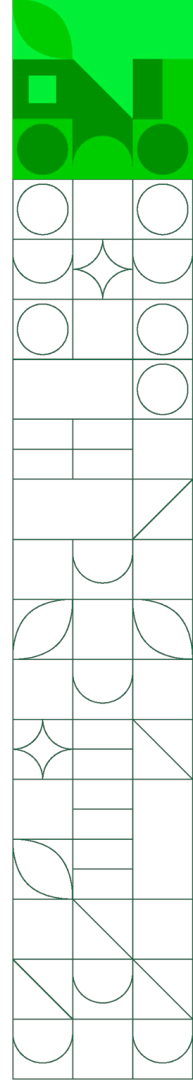

- **Before IN 01/2017:**
 - Paper forms: long period for sending the documents, analysis and return of the DIPOA opinion.
8 -12 months
- **After IN 01/2017 (changed by Portaria 558/2022):**
 - On line forms

Registration of animal origin products from the EU

On line forms are divided in two categories:

- Regulated products: Products that meet the Technical Regulations of Identity and Quality (RTIQ) implemented by DIPOA/MAPA will have their automatic registration when inserted in the system.
- Non-regulated products: forwarded for analysis by the technical staff of the Product Registration Division (DIREP/CGI/DIPOA/SDA/MAPA).

Registration of animal origin products from the EU

ATTENTION

- Registrations up to 2016 that were approved in paper form are not counted.
- Paper form registers have until May 2024 to be registered in the PGA-SIGSIF system (article 25 Portaria 558/2022).
- Compliance with Brazilian legislation updated in recent years, such as the norm for microbiological parameters and nutritional labeling.

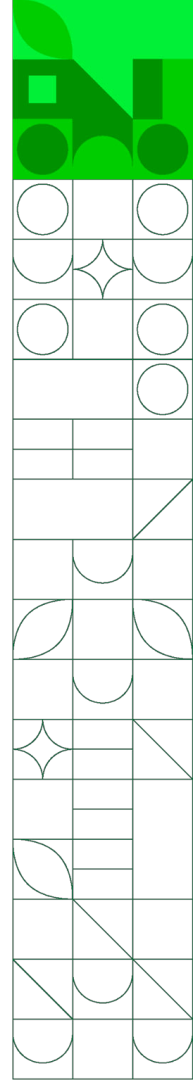

Registration of animal origin products from the EU

Technical Regulation in Brazil (RTIQ) can be obtained at the electronic address:

[Regulamentos Técnicos de Identidade e Qualidade de Produtos de Origem Animal — Ministério da Agricultura e Pecuária \(www.gov.br\)](http://www.gov.br)

- **Milk products** - Total Regulations: 82
- **Meat products** - Total Regulations: 56
- **Egg products** - Total Regulations: 05
- **Fish products** - Total Regulations: 14
- **Honey products** - Total Regulations: 09

Registration of animal origin products from the EU

Factors delaying registration approval:

- Non-presentation of certificates or documents such as origin or quality (DOP or IGP);
- Lack of bibliographic and technical reference, mainly regional products from EU
- Non-compliance with Brazilian legislation regarding article 429 (Decreto 9.013/2017), microbiological or physical-chemical standards
- Insertion of product in incorrect category or standardized product in PGA-SIGSIF system

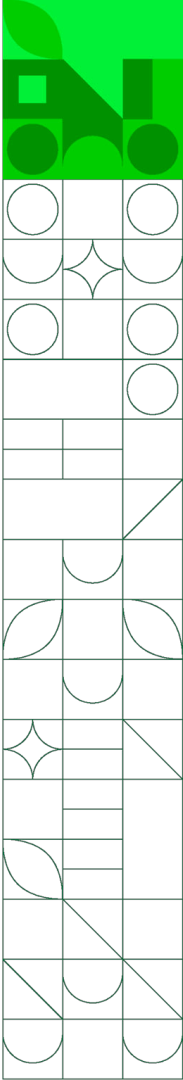

MINISTÉRIO DA
AGRICULTURA
E PECUÁRIA

Registration of animal origin products from the EU

Proposal to speed up registrations of European products:

- Opening of dialogue channels between Brazil/EU technicians
- Proceeding with project DIÁLOGO SETORIAL:
Cooperation Project for technological knowledge of European products which are registered in the MAPA
- Technical visits to learn about European products, their manufacturing processes and regulations
 -
- Update of Brazilian legislation regarding products of animal origin ((RTIQ´s)
